

CHAPUIS

CHAPUIS

ÉLAN ARTISAN DOUBLE RIFLE
5A-Grade walnut

A Premium Line to Make You Stand Out

Chapuis Armes is a family-based French manufacturer of premium-grade rifles and shotguns. It is located near Saint-Etienne in France, a gunmaking area that for centuries has produced some of the most trusted (and copied) firearms in history. It is in fact from the Saint-Etienne arsenal that came the legendary French M. 1777 musket—which helped our young nation win the War of Independence, and which was emulated by the Springfield arsenal to become America’s first regulation musket.

Owning a Chapuis premium gun is for the connoisseur. Chapuis produces a finite number of firearms a year while insisting upon absolute beauty and reliability. This is why having a Chapuis firearm makes a statement: if I own a Chapuis, I did my research, I went off the beaten path and I have gained a unique, stunning, and absolutely reliable adventure companion. For life.

But don’t take our word for it. When you see a Chapuis, you’ll be immediately impressed by the sheer beauty of the firearm. Chapuis wood is—quite literally—second to none, while Chapuis engraving (be it laser- or hand-etched) is a work of art in itself. And talk to many of the most seasoned African dangerous-game professionals, and they will tell you that they trust their life to a Chapuis rifle.

Chapuis premium shotguns and double rifles come with a finely-engraved receiver. Depending on the gun, it features various game scenes framed by superbly-intricate lace-like scrolls. Starting at grade 3, Chapuis wood is hand-selected, meaning that it will outclass in beauty guns costing several times as much.

Élan Double Rifle

The Choice of African Professionals

ÉLAN ARTISAN DOUBLE RIFLE
5A-Grade walnut

ÉLAN CLASSIC DOUBLE RIFLE
AAA-Grade walnut

The Élan (French for “dashing, spirit”) double rifle is built around the svelte, traditional lines of the firearms carried in the golden age of African safaris. It features either a laser-engraved scalloped boxlock action (Classic grade) or hand-engraved sideplates (Artisan grade), with a classic stock sporting a cheekpiece and a tasteful recoil-soaking rubber pad. The Circassian walnut is hand-selected, as with all Chapuis premium guns.

The barrels are topped by a rib that gives you the traditional graduated V-shaped express sights as well as the option to attach Recknagel scope mounts with no modification. Chapuis double rifles have earned a rightful reputation as some of the most reliable and durable of their kind, making them a favorite among African professionals.

The Élan double rifles come standard in two hard-hitting rimmed cartridges for absolutely positive extraction. The versatile .450-400 NE and the .470 NE have been African favorites for over a century.

Iphisi Double Rifle

The All-Purpose Double Rifle

IPHISI DOUBLE RIFLE
AAA-Grade walnut

The Iphisi is embellished with several exquisite touches. The glossy blue top lever, triggerguard and grip-cap make a fine contrast with the marble-like colorcase finish of the receiver. A discrete but beautiful scroll engraving borders the receiver as well as the barrels, forend latch, grip-cap, tang, and top rib. On the receiver's underside, the model name is enclosed in an engraved Zulu warrior's shield, in conformity with the spirit of this rifle.

Lastly, we have made the Iphisi easy and convenient to scope. The top rib is machined to accept Talley rings. Make sure you select a model that tightens through an Allen key, since the barrels would get in the way of the fins of a quick-detachable model. For best results, please select high or extra-high model rings. Also, by unscrewing and removing the existing Talley bases, Recknagel pivot mounts may be used (item numbers 66007, 66008, 66009—see page 18).

In his immortal work *African Rifles and Cartridges*, John "Pondoro" Taylor speaks of what he considers the ideal all-purpose rifle for the ambitious hunter: his choice is a scoped .375 H&H double rifle, light enough to be pleasant to carry but still heavy enough to be pleasant to shoot. It is in this spirit that Chapuis has created the Iphisi double rifle, available in the powerful and versatile .375 H&H (.375 Belted Rimless Magnum and, .450-400 NE). If a hunter already possesses a bolt rifle in .375 H&H, the Iphisi takes the same cartridge, offering the additional advantage of ammo compatibility.

The Iphisi (iziZulu for "big-game hunter") is a beautiful, yet no-nonsense double rifle designed to be the ultimate all-around companion for any hunting adventure worldwide. Built around the vault-like, proven Chapuis

Progress action, it features sleek, classic lines, a handsome colorcase receiver with minimal engraving, a AAA-grade Circassian walnut stock with English-style cheekpiece, and traditional three-leaf express sights. In addition, the Iphisi is machined to accept readily-available Talley rings, so that the user can easily mount his favorite scope. And by removing the existing Talley bases, the Iphisi takes the same Recknagel pivot mounts as the Elan. The sleek 26" barrels come regulated for the Hornady DGX factory load, but thanks to Chapuis' patented regulating mechanism, a competent gunsmith can easily re-regulate it for a hunter's favorite combination.

In sum, the Iphisi was conceived from the ground up to be handsome, durable, reliable, and eminently suited to take any game on Planet Earth under most conditions.

X4 Double Rifle

A Trim, Petite Double Rifle giving Easy Re-regulation

X4 DOUBLE RIFLE
AAA-Grade walnut

Pick up a Chapuis X4 double rifle and you'll feel like you are holding a little jewel. Built on a sub-gauge shotgun action and sporting lightweight 22" barrels, the X4 is perfect for the hunter looking for a quick-handling, light and trim double rifle. Originally conceived for European-style driven game, this big rifle in a small package is offered in the hard-hitting 9.3x74R and the versatile .30-06 chamberings.

But in spite of its classic lines, scroll engraving, and beautiful grade-3 Circassian walnut with English-style cheekpiece, the X4 ushers in a new patented technology that makes it unique and uniquely-versatile.

As most double-rifle aficionados know, the slightest alteration in load, bullet weight, bullet shape—and sometimes even the addition of a scope—can upset the original regulation of the barrels. Re-regulation is a fairly complex process involving re-soldering and re-bluing the barrels. With the X4, Chapuis has solved this age-old problem by free-floating the right barrel: a guiding ring at the muzzles can be adjusted by a professional gunsmith to make the barrels converge with your new load—with no alteration whatsoever to the rifle.

X4 DOUBLE RIFLE

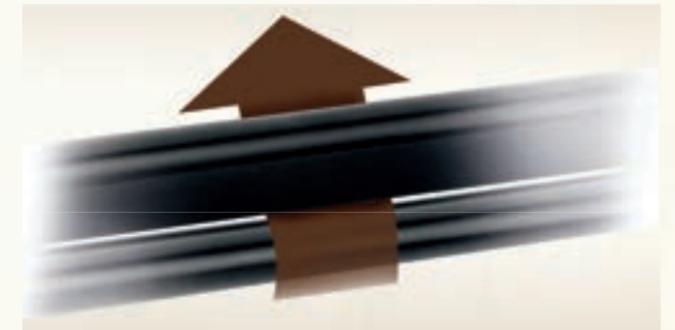

ITEM NUMBER	CALIBER	BARREL LENGTH	STOCK	OVERALL LENGTH	AVERAGE WEIGHT	MSRP
AAA-GRADE CIRCASSIAN WALNUT						
16732	9.3x74R	22"	AAA-Grade Walnut	40"	6 lbs.	\$8,799
16733	.30-06	22"	AAA-Grade Walnut	40"	6 lbs.	\$8,999

SPECIFICATIONS: Twist: 9.3x74R: 1:14.2, RH .30-06: 1-10" RH Capacity: 2 Trigger: Double Length of Pull: 15.3" Drop at Heel: 2.55" Drop at Comb: 1.57" Type of Sights: Open

SPECIFICATIONS AND PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

STANDARD FEATURES

- EJECTORS**
- MANUAL SAFETY**
- DOUBLE TRIGGER**
- SIGHTS:** Adjustable standing rear, ramp front. Machined to accept Recknagel scope mounts.
- FLORAL ENGRAVING**
- STOCK:** AAA-Grade Circassian walnut.
- HARD CASE**

This is the basis of the X4's technology: the right barrel is discretely free-floated from both the left barrel and the central rib. An adjustable ring holds the barrels together at the muzzles and may be tweaked by a competent gunsmith to re-regulate the point of convergence of the shots.

RGEX Double Rifle

Sleek, Light Round-Action Double Rifle in .30-30

In the last few years, there has been a growing demand for light, small-frame, short-barreled double rifles suitable for hunting both in the USA and abroad. Formerly available by special order only, we are now offering the handy RGEX rifle in .30-30, an especially accurate rifle perfect for medium game out to 150 yards. The 22" barrel RGEX is built on a light 28ga frame, and upon request, it may be special-ordered with an extra set of 28ga shotgun barrels with their respective forend (inquire for price and availability). The RGEX comes with fully-adjustable sights and may be scoped or outfitted with a red dot.

STANDARD FEATURES

- EJECTORS**
- MANUAL SAFETY**
- DOUBLE TRIGGER**
- SIGHTS:** Adjustable standing rear, ramp front. Machined to accept Recknagel scope mounts.
- FLORAL ENGRAVING**
- STOCK:** AAA-Grade Circassian walnut.
- HARD CASE**

The Chapuis RGEX is built on a Progress 28-gauge scalloped receiver, beautifully engraved. Shown here is one of the many versions they have made, embellished with a whitetail deer.

Chasseur Side-by-Side

The Most Classic of Classic Choices

CHASSEUR ARTISAN SIDE-BY-SIDE
5A-Grade walnut

CHASSEUR CLASSIC SIDE-BY-SIDE
AAA-Grade walnut

There are no two ways about it. Show up to an upland hunt with a premium side-by-side, and you make a statement even without saying a word. I am traditional. My gun is so much more than a tool. To me, hunting is equally about the ritual, about timeless elegance and taste, as it is about hitting birds. And most importantly, I don't want to be like everyone else.

The Chapuis Chasseur (French for "hunter") gives you all that and much more. While being built around the most classic lines of a side-by-side, it offers automatic safety, ejectors, plus the modern convenience of interchangeable flush chokes. And with the Circassian Walnut stock for which Chapuis is rightfully famous, we would be extremely surprised if your shotgun wasn't—each time—the most admired gun in the field.

The Chasseur comes in two grades: Classic (laser engraved, grade 3 wood) or Artisan grade (hand-engraved, grade 5 wood). Both feature a vault-like action, solid rib and straight, English-style stock.

The Chasseur is available in 3 gauges: 12, 20 and 28, with a barrel length of 27.5 or 28 inches. It comes standard with double triggers, auto safety, ejectors and five interchangeable flush choke tubes.

STANDARD FEATURES

- SPECIAL ORDER:** Approximately 8 months delivery time, unless in stock.
- EJECTORS**
- AUTO SAFETY**
- DOUBLE TRIGGER**
- FLUSH CHOKE TUBES:** C, IC, M, IM, F and wrench.
- GLOSS BLUE BARRELS**
- STOCK:** 5A-Grade satin walnut, English stock.
- RECEIVER:** Hand-engraved, coin finish, Blitz type.
- HARD CASE:** Prestige-grade, custom-fitted.

The Chasseur Deluxe side-by-side is one of the most stylish and traditional offerings from this celebrated French brand. It has all the features of the Chasseur Classic—our best selling shotgun—plus a striking set of sideplates as well as a highly-figured grade-4 Circassian walnut stock and forend. It is available in the popular 20-gauge version, making it ideal for any upland game in the world. Sporting 3-inch chambers, it comes with five interchangeable chokes rated for lead as well as steel shot.

The Faisan Deluxe over-under shotgun offers the features and shootability of the Faisan Deluxe, but is further embellished by engraved sideplates and 4-star highly-figured walnut stock and forend. Like its side-by-side cousin, it joins the lineup in 20-gauge configuration, our most popular chambering for upland hunting. It features a rounded forend, pistol grip stock, single trigger, as well as a ventilated rib. The barrels sport 3-inch chambers and offer five interchangeable flush chokes for added versatility.

Faisan Over/Under

Timeless Durability

FAISAN ARTISAN OVER/UNDER

5A-Grade walnut

FAISAN CLASSIC OVER/UNDER

.410 BORE

AAA-Grade walnut

FAISAN CLASSIC OVER/UNDER

AAA-Grade walnut

The Faisan (French for "pheasant") is designed to achieve two goals: offering you the perfect and most functional upland over/under while making you stand out for the beauty of the premium-grade wood and the uniqueness and prestige of the brand you carry. The action of the Faisan is built from a single block of forged steel for maximum resistance and durability. And the action's profile is low, meaning that your supporting hand will be very close to the bore axis for instinctive pointability under most hunting circumstances.

The Faisan comes standard with a ventilated rib, five flush choke tubes, ejectors and auto safety. The stunning, hand-selected Circassian walnut stock (Classic: grade 3; Artisan: grade 5) features a checkered pistol grip for positive purchase, and a tasteful checkered walnut butt plate.

The Faisan is offered in four gauges: 12, 20, 28, and .410 – each with its own receiver size. Engraving is a classic, intricate scroll with game scenes. Single trigger and pistol-grip stock with checkered butt.

STANDARD FEATURES

ROLS

Tomorrow's Straight-Pull Bolt Action

**ROLS HERITAGE
STRAIGHT-PULL
BOLT-ACTION RIFLE**
AA-Grade walnut,
one-piece stock

With the straight-pull concept making a resurgence, Chapuis has entered the fray with the superlative ROLS rifle. Compared to other brands, it is lighter and trimmer thanks to a unique locking design tested to safely withstand up to 123,000 PSI.

The ROLS also offers:

- Interchangeable barrels though a single captive screw (other calibers by special order)
- True detachable magazine—4-round (standard calibers), 3-round (magnums)
- Sub-MOA accuracy guaranteed
- Positive, repeatable scope mounting system with 5 locking points (see page 18)
- Thumb-activated safety-decocker
- Internal safety prevents accidental firing unless bolt is pushed all the way home

Lightning-fast to operate, absolutely safe, trim and unique, the ROLS is for the big-game hunter who values premium quality, quick follow-up shots, superb accuracy, versatility, portability, as well as the chance to stand out from the pack.

STANDARD FEATURES

*** **UPDATED** *** **EFFECTIVE: January 1, 2026**

2026 Benelli USA Minimum Advertising Policy

Benelli USA/Stoeger Industries, Inc. products are among the most sought-after items in the firearms industry. In addition to the advanced technology used in the design and manufacture of these products, the superior craftsmanship, and high quality of the materials used in the product's construction and the price at which these products are sold also forms part of the public's perception of their value.

Anyone who sells Benelli, Franchi, Stoeger, Uberti, Chapuis firearms and/or Stoeger Air Guns, may do so at whatever prices that person or company chooses. The decision concerning how to price any product is a decision that is made by the direct account - alone - and cannot be the subject of any agreement between that direct account and Benelli USA Corp., its employees or representatives.

Notwithstanding and independent of this freedom on the part of Benelli USA's/Stoeger Industries, Inc.'s direct accounts to set their own pricing for Benelli, Franchi, Stoeger, Uberti, Chapuis firearms and Stoeger Airguns, effective January 1, 2026, Benelli USA Corporation is updating the Minimum Advertising Policy (2026 MAP), regarding Minimum Advertised Price (MAP), for all applicable products, while continuing its unilateral policy with respect to commercial advertising of Benelli, Franchi, Stoeger, Uberti firearms and Stoeger Airguns.

Benelli USA will only do business with Benelli USA authorized dealerships that commercially advertise all Benelli, Franchi and Stoeger brand firearms at or above the "Minimum Advertised Price" or MAP for those products as shown in Benelli USA's 2026 Authorized Dealer Price Lists. This policy does not apply to discontinued products not listed on Benelli USA's 2026 Authorized Dealer Price List.

IMPORTANT NOTICE: Benelli USA policy defines a MAP violation as giving **anything** of value, even another product, gift or discount, that is tied to the purchase of the Benelli/Franchi/Stoeger product if the giving of that additional product, gift or discount would, in turn, bring the advertised value of the Benelli USA product below MAP if the items are considered in the aggregate.

Examples of MAP violations would thus include but not be limited to the following:

1. Giving a store-wide discount to purchase of any brands of guns found in the store would be a MAP violation for the advertised sale of the Benelli USA firearms if the advertised Benelli USA price less the store-wide discount reduced the Benelli USA price below the MAP level.
2. Giving a gift card with purchase would be a MAP violation for the advertised sale of the Benelli USA firearms if the advertised Benelli USA price less the gift card value would reduce the Benelli USA price below the MAP level.
3. Giving free goods with purchase would be a MAP violation for the advertised sale of the Benelli USA firearms if the advertised Benelli USA price less the value of the free goods would reduce the Benelli USA price below the MAP level.
4. Bundled purchase including gun would be a MAP violation for the advertised sale of the Benelli USA firearms if the advertised Benelli USA price less the specified value of the bundled goods would reduce the Benelli USA price below the MAP level.

In assisting dealers to promote products in 2026 from Benelli USA the company may offer MAP reduction or removal promotional windows on select products from time to time. These MAP reductions will be communicated to Benelli USA Authorized Dealers in advance of promotional windows.

NOTICE REGARDING ON-LINE SALES: This MAP Policy does apply to product priced for sale to consumers online. Any online sales solicitation price will be subject to the terms of this policy. Prices shown online will be subject to this policy up to the point that a financial transaction occurs. In addition, online selling procedures (i.e. "add to cart") cannot advertise or imply that doing so will reduce the price advertised online below MAP.

This MAP Policy does not apply to Uberti, or Stoeger Airguns products, or parts or accessory products from any Benelli USA brand company, including parts and accessory products from Benelli, Franchi, Stoeger firearms and Stoeger Airguns where Benelli USA advises its customers in writing that said product, parts or accessory is not subject to Benelli USA's Minimum Advertised Price policy.

PENALTIES

After January 1, 2026, if the direct account advertises MAP-protected product in violation of this policy, **Benelli USA will address the MAP violation with the customer and take appropriate actions, up to the suspension of all shipments of all Benelli USA products to the account for a period of 60 days**, to include all products from Benelli USA/Stoeger Industries, Inc.

If either during this 60-day period or at a future time the same account again advertises MAP-protected products in violation of this policy, **Benelli USA will cancel all existing orders and discontinue doing business with that account.**

ADDITIONAL NOTICES

All Benelli, Franchi, Stoeger firearms, Stoeger Airguns, and Uberti sales must be to consumer end-users only. Transshipment of Benelli USA or Stoeger Industries, Inc. products (i.e.: commercial distribution) to another Federal Firearms Licensee for the purpose of resale is prohibited.

Benelli USA/Stoeger Industries, Inc. products are not prohibited from national advertising, Internet sales, or mail order sales to consumers. Minimum Advertised Price (MAP) policy will be strictly enforced. Product(s) **already sold to consumers** can be forwarded to another dealer, for transfer to end-users.

Export of all Benelli USA/Stoeger Industries, Inc. products is strictly prohibited.

Benelli USA reserves the right to modify this policy from time to time in its sole discretion.

Benelli USA does not seek, nor will it accept, any direct account's agreement to any of the issues raised in this statement of advertising policy.

Benelli USA employees and sales representatives have been instructed not to discuss any aspect of this policy with any account. Any communication by any Benelli USA employee or sales representative in violation of this instruction is without effect and does not represent the official position of Benelli USA. For this reason, all questions regarding this policy should be directed in writing only to:

Brett Gliosca
General Counsel
Benelli USA Corp.

If you have not created your account yet, please allow me to remind you of some function and convenience you may be missing out on:

- Check item availability
- Place your own orders
- Check order status
- Get tracking information
- View account status and credit information
- Submit repair request
- Dashboard-important info at a glance
- Shipment notifications
- Pay invoice online
- Auto RA# for repair guns
- Upload your FFL
- Access documents and Marketing materials

What are you waiting for? Grab your account number and go to: <http://dealers.benelliusa.com> to create your account and get started.

Should you have any questions or need assistance, please call your in house CSR at 800-264-4962 or email: portalsupport@benelliusa.com.

CONSERVATION THROUGH ACTION

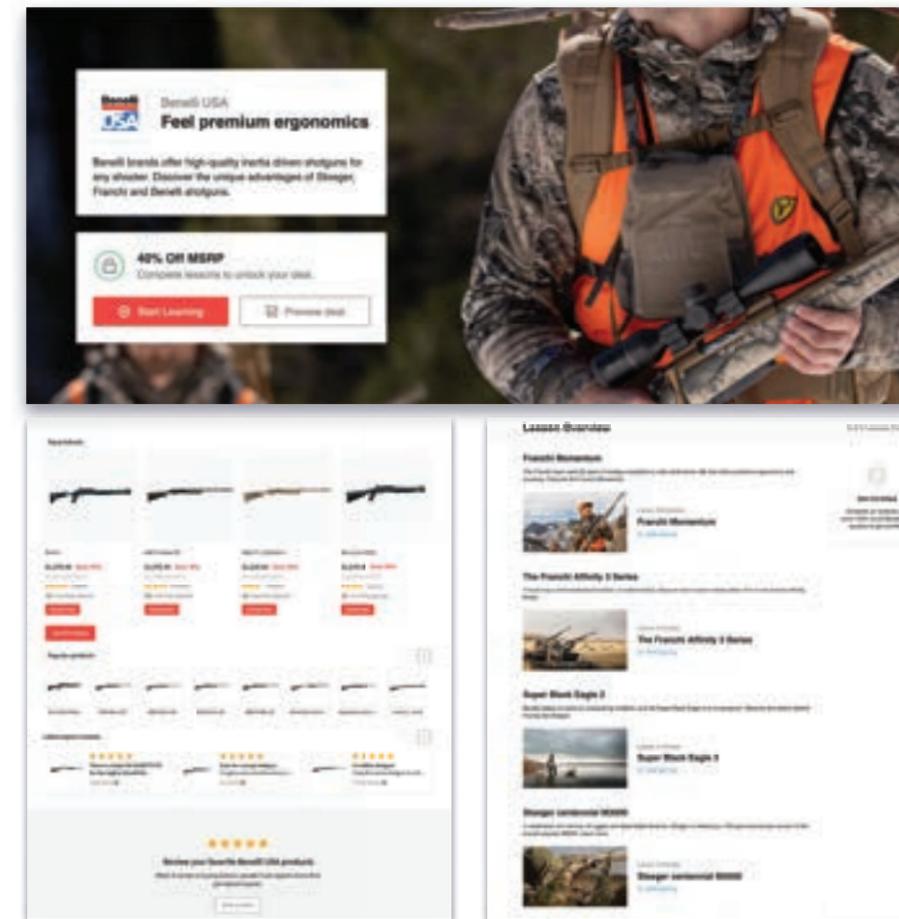

OVER \$225M CONTRIBUTED

Over the course of time, Benelli USA has remained committed to preserving the traditions, landscapes, and wildlife that define the outdoor experience. We believe in passing along more than just craftsmanship—we believe in passing along a legacy. That's why each year we contribute millions of dollars to conservation efforts that protect habitats, support responsible stewardship, and ensure future generations can experience the same freedoms we value today. At Benelli USA, we understand that the strength of our brand is rooted in the natural world that inspires it. **Our foundation is our future—and we're dedicated to safeguarding it.**
